Subject: Need your input on site abstract before public posting.

Guys—please take 5 to revise this wording for the intro of the webpage—I'd like to make it public ASAP to dispel potential miscommunication. I already told army corp. and FEMA about the webpage so I want to at least get the background up and running publicly while the polreps/sitreps will be at your discretion Dennis and Melissa. I'm keeping it general. Will be posted on www.epaosc.org/CharlestonWVChemicalLeak

Fred: I will give you full access to the site—please update with relevant FEMA links or Sit REPS, and give access to the next watch stander that relieves you to do the same. Thanks. For now Melissa agreed to serve in a situation unit role, she will keep watch standers up to date on happenings on the ground. They need to keep in touch with her.
